

Fw: Ex. 6 - Personal Privacy water sampling results request
Trish Taylor to: Richard Fetzner

03/05/2012 03:55 PM

From: Trish Taylor/R3/USEPA/US
To: Richard Fetzner/R3/USEPA/US@EPA

FYI
I still have not gotten back to them with an ETA for our results.

Ms. Taylor we noticed the green car the EPA goes around in on Carter Rd recently. We still haven't gotten any test results from either EPA or DEP. We were told that the EPA was going to give them to us. As you can see we've gotten them from Cabot. I am sending them to you again. Can you please tell us when you will give us our testing results from the EPA and when the water tanker truck that the tax payers are paying for will stop? It's also very odd that the truck comes up Carter Road every day and after delivering water to the Sautner home it turns around and goes back down Carter Rd. Since my husband has a CDL and I was a mail carrier we are aware that truck drivers aren't supposed to back up unless it's absolutely necessary. Since the Sautner home is near the end of the road it would seem the truck should continue out onto the black top road instead of backing up. It seems this must just be being done in an attempt to draw attention to it. It is also odd that the truck needs to be escorted each and every day by a pick up truck. If you lived where we do and had gone true and continue to go thru what we do you would understand why we question. It's also odd that people who take a jug of brown water with them everywhere they go refuse to have all the free testing on their water that they can get. Since we live right next door and their lawyer says our treatment system doesn't work we'd like to have the results as soon as we can. I believe the paper said some would be back with 5 days. Unlike the litigants we actually use our water each and every day and have been for over a year now. Again, we await our test results.

Thank you,

Ex. 6 - Personal Privacy

Ms. Taylor these are the test results we got from Cabot. If the litigants had taken a treatment system I'm sure the results for their testing would be good too. Please stop the water truck that comes every day and make them pay for what they have gotten. If it was truly about the water they would have taken a treatment system. What right do they have to say no you can't try and fix it because we won't let you.?

These are the test results we got from Cabot. We haven't gotten any from EPA or DEP. EPA told us they were going to come out and give us test results they were a no show and never even called. Haven't returned emails either. That water tank truck that comes each and every day should stop and the people receiving the water should pay for all they've gotten.

Ex. 6 - Personal Privacy

The attached files contain lots of your data. The one called Ex. 6 - Personal Privacy Full Data Set" is all of your data that we have in our database - it's over 300 pages! The other file called Ex. 6 - Personal Privacy 2011" is just the data from 2011 to the present - it is a little easier to deal with.

The two other files are the lab sheets from the samples we collected along with the EPA. (I think all the data is here except for the radio nuclides). One is for the untreated water (well 1-1) and the other is the treated water (well 1-2). The treated water meets all drinking water standards.

Please let me know if you have any questions. I'll be out there next week so we can meet if you like.
